Metropolitan State University
of Denver

Denver, CO | 2016

PROFILE

I am a self-driven, detail-oriented software engineer with a strong background in marketing and hospitality. I thrive in a friendly, yet competitive team-oriented environment where my skills can be challenged and grow. Through my unique career path, I've cultivated skills that make me particularly suited for roles where being highly adaptable, motivated, and communicative is key.

PROJECTS

Kraterologist

Node.js, Express.js, PostgreSQL, Sequelize, RESTful Routing, HTML, CSS, JavaScript

Hobbyist Corner is essentially a hobby forum with more social media development. Users can create their own profile, add their projects and different hobbies. Once they have developed their profiles, they can post their current projects, add photos, and also comment on or like other user posts.

Spaceman

HTML, CSS, JavaScript, Photoshop

Four day solo sprint, created a fully functional and immersive hangman game with responsive design qualities. In order to create a more unique and individualized look and feel to the game.
